

## Future Astronomer Program Telescopes 2025

The Charlottesville Astronomical Society has new and refurbished telescopes available for junior astronomers in the 7<sup>th</sup> through 12<sup>th</sup> grades. These telescopes kits are portable and will allow the user to view and study the moon, planets and many deep sky objects.

The kits will be made available FREE of charge, one per family, to interested families who complete four 90-minute instruction sessions led by members of the Charlottesville Astronomical Society. The sessions will be held at the McCormick Observatory on the grounds of the University of Virginia or in Pen Park in Charlottesville

To be considered for one of our Future Astronomers Program telescopes, please complete the information below and mail or email it to: Steve Layman, 1633 Regent St Charlottesville, 22911\*
